

Apogee Traditional RF Services

Apogee is the proven leader in television programming for college and university campuses nationwide. In order to better serve the needs of the higher education community, we offer state of the art video programming using high definition 1080i format.

HIGH DEFINITION

With HD quality, you'll see images 6x sharper than SD solutions, providing your students with the content they want at the quality they want.

NO SET TOP BOX

Our service requires no set top box, allowing your students and staff to worry about one less piece of equipment. Our headend is much smaller than standard definition ones, allowing cost efficiencies and less space used in your server room.

Apogee IPTV Video Services

Residential life is paramount to driving student success. Studies show that students who live on campus have higher GPAs, participate in more co-curricular activities and have a higher graduation rate. Therefore, it's important to provide the amenities students are used to receiving at home while on campus. The modern student is accustomed to rich media that is available anywhere and tailored to fit their needs.

○○○

STREAM2 is our next generation Internet Protocol TV (IPTV) service created specifically for your campus. Built on our deep history of being a value-added extension to your team, Stream2 is the best way to keep your students on campus, engaged, and is a critical platform for driving success.

Students can access the IPTV service through an app branded for your school and all the content and programming it offers at any time, on a variety of Wi-Fi connected devices.

REDUCED BANDWIDTH CONSUMPTION & COST AVOIDANCE

Stream2 is built inside your campus network to deliver high quality, premium broadcast without consuming external bandwidth. This significantly reduces bandwidth consumption and costs.

BETTER VIEWING EXPERIENCE

Our streamlined technology makes for a more reliable, high-quality experience without slowing down your network.

TRICK PLAY & DVR

Students can pause, rewind, fast-forward, record and even start shows from the beginning. Features include catch-up TV with a 24-hour window of replayable content and 20 hours of DVR storage per user.

PREMIUM CONTENT

Stream2 is a turnkey solution that provides the latest and greatest in premium programming. Unlike dealing with third-party content providers, Apogee works with you to create the perfect line-up to meet your needs.

SCHOOL-BRANDED

The Stream2 app and interface are custom branded for your school, utilizing your school logo, colors and iconic images to give students, faculty and staff true school pride.

CAMPUS CONTENT

Stream2 is built for students and higher education. Our mission is to drive student engagement, success, and to enhance the academic experience. Stream2 integrates with our Engage platform to collect and curate social media, videos, academic content and flyers. Once approved the content plays across Stream2 and can be integrated with digital signage, helping to build a stronger campus community.

24/7/365 SUPPORT

These great features and benefits are all provided under our proven 24/7/365 student model, giving your students and staff the support they need, when they need it. Call, chat, text, or email is available 24/7/365.
